

6th International Webinar on Cancer Research and Treatment

Theme: Integrating Clinical Excellence and Research Innovation for Better Cancer Outcomes

Date
Nov 27, 2026

Time Zone
GMT+7

SCAN ME

Scientex conferences host a plethora of events in various fields, including Medicine, Pharma, Health Science, Life Science, Engineering, and Technology. We organize all our events with the utmost care and diligence, providing top-notch facilities and infrastructure for smooth and successful knowledge transfer among attendees. Our goal is to solve modern scientific problems for the betterment of our lives. Scientex conferences focus on achieving greatness by offering excellent opportunities for professionals to explore the scientific research community and introduce potential breakthroughs. We provide a fitting platform for eminent speakers, innovators, inventors, industry professionals, scientists, academicians, established authors, scientific editors, medical physicians, medical service providers, nursing professionals, research associates, analysts, and students to exchange ideas and find solutions to major global challenges. Our conferences are highly successful, featuring high-quality interactive technical sessions with recent research findings and futuristic trends. We focus on providing workshops and symposiums through well-established industrial and academic tie-ups with various professional bodies, organizations, and top-rated universities worldwide. We bring in eminent speakers with world-class expertise from various countries to enlighten our researchers and spark enthusiasm for research through our best conferences. These events provide a platform for effective collaborations on the latest research for the worldwide community. Our conferences include exceptional keynote speeches, interactive sessions, and lively debates on research and development in Medicine, Engineering, and Technology. ([click here for more](#))

About Webinar

The **6th International Webinar on Cancer Research and Treatment** will be held on **November 27, 2026 (GMT +7)**, under the theme “**Integrating Clinical Excellence and Research Innovation for Better Cancer Outcomes.**” The webinar will bring together over 50 oncology professionals, offering rich opportunities for networking and collaboration. All participants will receive an e-certificate of attendance.

This event aims to facilitate in-depth discussions on cutting-edge technological and mechanistic developments in cancer research and their translation into clinical applications. Our mission is to unite leading international academics and clinicians in oncology to share knowledge, exchange insights on cancer treatment approaches, and promote collaborations that advance cancer research and patient care. 6th International Webinar on Cancer Research and Treatment

November 27, 2026 | GMT+7

WEBINAR PRESENTATIONS

Title: Short term outcomes of palliative surgery on advanced cancers in a tertiary cancer hospital in low middle country

Suzon Kumar Mazumder, National Institute of Cancer Research and Hospital, Bangladesh

Title: A novel method of finding non-infectious disease causes by combining multiple research. A unique combination of physiological changes which causes breast cancer

Alan Olan, Independent Researcher, USA

Title: Soya, sweat, and sunlight: Predictors of prostate cancer prevention among health science students

Aime Fidele Ndayiragije Mvuyekure, Adventist University of the Philippines, Philippines

Title: Federal health reform: Breast cancer outcomes

Nia Bailey, West Chester University, USA

Title: Nutraceutical interventions for managing chemotherapy-induced toxicities in standard cancer care

Rajashri Kanad Gutte, Kanad Life Sciences Pvt. Ltd, India

Title: Prognostic significance of androgen receptor expression in triple-negative breast cancer

Ivan Panchenko, Ulyanovsk State University, Russian Federation

Title: Simultaneous presentation of follicular lymphoma and diffuse large b cell lymphoma (DLBCL): A case report

Rosmeri Handayani, Indonesian Education University, Indonesia

Title: Acute limb ischaemia mimicking radiculopathy in metastatic prostate cancer despite full-dose rivaroxaban: A diagnostic pitfall

Abdelaziz Elsalrawy, Mid and South Essex University Hospitals Group, United Kingdom

Title: Regenerative strategies in chemotherapy extravasation injury: Biological rationale and clinical application of platelet-rich plasma

Jeffrey Ariesta Putra, Yogyakarta State University, Indonesia

Title: Extended-interval immunotherapy in advanced lung cancer

Salome Kordzaia, Multiprofile Clinic Consilium Medulla, Georgia

Title: Unexpected aftermath: Leiomyosarcoma arising from radiation therapy post breast cancer surgery

Raghav Kapoor, Rajiv Gandhi Cancer Institute and Research Centre and Aakash Healthcare, India

Title: Uptake of technetium-99m sestamibi (99mTc-MIBI) as a predictor of fracture risk in the appendicular skeleton of multiple myeloma patients at a national reference center

Reyna Sarahi Bañuelos Balderas, Orthopedic Oncology of the National Institute of Rehabilitation, Mexico

Title: Once upon a time inside a black hole : A rare case of malignant melanoma of upper alveolus and hard palate

Sanjana GK, SDUMC, Kolar, India

Title: Clinical impact of aberrant DNA methylation in breast cancer

Menha Swellam, National Research Centre, Egpty

Title: Fluorescent technologies in the diagnosis and surgical treatment of melanoma of the trunk and extremities

Daria Turovets, Botkin Hospital, Moscow, Russia

Title: To study the clinical course and management of recurrent OSSN in HIV positive patient in eastern uttar pradesh

Aditi Jhunjunwala, Madhav Prasad Tripathi Medical College Siddharthnagar, India

Title: Integrating artificial intelligence and structural biology to improve genetic variant classification in precision cancer medicine

Shristi Biswas, Silver Oak University, India

Title: Comparison of child–turcotte–pugh score and albumin–bilirubin index for prognostication in advanced hepatocellular carcinoma: A five-year prospective cohort study from a tertiary cancer centre in a low- and middle-income country

Nishant Sinha, SMIH SGRRU, India

Title: Immunomodulatory effects of surgery and radiotherapy on granulocytic myeloid-derived suppressor cells in glioma patients

Yiming Yan, The First Affiliated Hospital of Zhengzhou University, China

Title: A method for intraoperative assessment of esophagogastric anastomotic tightness to enable early safe sipping oral nutrition and prevent anastomotic leakage in the early postoperative period after lewis esophagectomy

Anton S. Chernykh, Yaroslav-the-Wise Novgorod State University, Russian Federation

Title: Impact of 3D radiotherapy with cisplatin on the Eastern Cooperative Oncology Group performance status and quality of life in terms of acute dermatological and other side effects

Talha Laique, Lahore Medical and Dental College, Pakistan

Title: Tattoo-less DIBH radiotherapy for left-sided breast cancer using IDENTIFY™ SGRT: A comparison of setup accuracy on TrueBeam SVC and Halcyon Elite

Swapna Lilly Cyriac, Advanced Care Oncology Center, USA

Title: Access to cancer medicines in Kenya: a scoping review of costs, financial toxicity, quality of life and policy impacts

James Onyuro Oketch, Jaramogi Oginga Odinga University of Science and Technology, Kenya
